NA: not applicable

Magensa Payment Protection Gateway and Magensa Decrypt and Forward Services together with the MagTek “Dyna” family of products enable secure payment processes with a variety of L3 certified processors. One integration with Magensa provides tremendous flexibility to ISVs, VARs, ISOs, and system integrators in terms of product solutions and processor options. All of our L3 certifications include our QwickDip (Quick Chip) technology, which improves transaction speeds and reduces complexity.

“Dyna” Family includes: eDynamo, iDynamo 6, tDynamo, mDynamo, mDynamo Outdoor Bezel, oDynamo, DynaWave, DynaDip, DynaPro Go, DynaFlex, and DynaProx

SCRA Family includes: iDynamo 5, iDynamo 5 (Gen II), Dynamag, and DynaPAD

If you are interested in doing your own certification, go to www.emvco.com for a list of MagTek hardware L1 and L2 certifications.
