WHAT SETS HAVIS APART

Ask us about their secure mounts and tablet and phone holders

- Compatible with leading POS manufacturers such as HP, Toshiba and NCR
- Expertly designed and constructed using high quality materials

MOBILE PAYMENTS SOLUTIONS

The Havis POS & Display Mount Family addresses the challenge of securely mounting point-of-sale (POS) displays and linked POS peripherals, such as payment terminals, printers, scanners, and cash drawers, to maximize the use of valuable, and often limited, space. With three core series to offer – DM-1000, MM-1000 and TechTower – Havis POS and Display Mount solutions ensure ergonomic use of POS hardware by operators and where required, allow POS hardware to easily be used by customers for payment transactions and information access.

BRACKETS TO BUILD FROM

Bracket and hardware kit designed to mount the MagTek 21040108 card reader to front left side of your Havis docking station
