MagTek and Vault Collaborate to Deliver a Secure, Rugged, and Flexible mPOS Experience

DynaFlex II Go and Vault Connect Create an Industry-Leading Mobile Payment and Identity Access Solution for Businesses Everywhere

Seal Beach, CA – January 10, 2025 – MagTek, a global leader in payment technology and security solutions, and Vault, an innovator in mPOS workflow systems, announce the support of MagTek's DynaFlex II Go with Vault Connect. This dynamic combination meets the vast requirements of customers across industries intent to grow their businesses with a flexible and multi-use mobile payment and identity access solution.

MagTek's latest innovation, DynaFlex II Go, is built for unmatched versatility in mobile transactions, accommodating both payment and non-payment applications. This all-in-one solution supports traditional payment methods, including swipe, dip, and tap for plastic cards, as well as NFC mobile wallets and 1D/2D barcode scanning. Designed to excel across industries such as retail, healthcare, hospitality, airlines, and finance, DynaFlex II Go combines mobility and flexibility to adapt to various use cases. Whether for line-busting, curbside pickup, delivery services, or deployment in countertop, mobile, unattended, or semi-attended environments, DynaFlex II Go delivers a reliable, secure, and adaptable solution for modern business needs. Additionally, DynaFlex II Go is certified to support Apple® VAS and Google SmartTap™ opening a world of possibilities with event ticketing, loyalty programs, airline tickets, and MIFARE® Classic, MIFARE® DESFire®, and NTAG to open more doors, quite literally, by providing solutions for access control and authentication.

Vault Connect is a rugged enclosure built to transform a payment device into a robust mPOS solution. With the end-user in mind, Vault Connect simplifies the transaction experience while protecting the payment device and securing the transaction. Additionally, Vault Connect works with Apple, Google, and Lenovo devices, expanding the options for end-users. This, added to its 6' drop rating, multiple grip options – all in a sleek design – put Vault Connect at the top of reliable mPOS offerings.

“The growth of mobile payments and in-branch digital transactions has created some very unique business requirements and more importantly, opportunities,” commented Andy Deignan, Chief Executive Officer of MagTek. “That’s why collaborating with an experienced and influential industry leader like Vault makes perfect sense. We share a customer-focused vision that has resulted in an exciting new offering, Vault Connect with DynaFlex II Go.”

All aspects of the Vault Connect with DynaFlex II Go have been designed to meet customer demands. It boasts Vault’s reliable cable-free charging and rugged case protection, as well as DynaFlex II Go’s AES-256 Encryption and PCI PTS 6.x SCR validation. Versatile, rugged, easy-to-integrate and easy-to-deploy, this mPOS solution possesses the necessary elements for an expanding business to succeed. And with the broad-market experience and technical expertise of Vault and MagTek, Vault Connect with DynaFlex II Go boasts a pedigree with appeal across industries.
