**MagTek is Excited to Announce ExpiTrans as the Newest Reseller of their QwickPAY Point-of-Sale Payment Application**

*QwickPAY delivers an added layer of security, flexibility, and speed to ExpiTrans' already robust list of gateway services, equipment, POS, and processing platform partners*

**Seal Beach, CA, July 11, 2024** – MagTek, a global leader in payment technology and security solutions, is partnering with ExpiTrans, a premier provider of end-to-end payment processing and merchant services, to offer MagTek's QwickPAY POS Software to ExpiTrans' small-to-mid-sized retail merchants.

QwickPAY is a versatile point-of-sale payment application available for Android, iOS, and Windows, enabling merchants to securely accept digital payments. Its security features are unparalleled, offering instant encryption, card and device authentication, counterfeit card detection, and card tokenization. Sensitive card details are never stored on the host device (mobile phone, tablet, or browser). Instead, the information is transmitted via secure connections for decryption, authentication, and processing through the L3-certified Magensa Gateway.

QwickPAY uses the MagneSafe® secure card reader authenticator (SCRA) family of hardware. This versatile hardware family supports connections to a wide range of devices, including smartphones and tablets, via USB, Lightning, or Bluetooth® LE technology. This enables merchants to accept various payment methods, including tap, dip, swipe, and manual entry, depending on the device's capabilities.

QwickPAY is design to accept payments:

- **In-store:** at counter, pay-at-the-table, mobile line-busting, and unattended kiosk
- **Mobile point-of-sale:** ready for curbside or delivery
- **Call-in:** for takeout and over-the phone orders
- **Online:** for eCommerce
- **Kiosk:** for standalone donations and transactions

“We are excited to offer QwickPAY to our merchants,” said Austin Nobles, Director of Operations at ExpiTrans. “We were impressed with the security built behind QwickPAY and the simplicity of the application. It is a great solution for our small-to-mid-sized merchants that need a quick, secure, and easy way to start accepting digital payments.”

ExpiTrans is a single-source provider of end-to-end payment processing and merchant services. ExpiTrans focuses on keeping businesses and their customers safe from fraud and theft. They provide the newest technology, including chip reader terminals to ensure secure processing. ExpiTrans offers 100% United States based customer service and first-class tech support. ExpiTrans sends easy to read monthly statements, to boost the merchant experience.

“Having ExpiTrans as a resale partner expands our reach with QwickPAY,” said Andy Deignan President and CEO of MagTek. “Their commitment to meeting merchants' needs is evident through their 24/7 support, adaptable equipment, transparent fees, and a dedicated focus on security which is where QwickPAY excels.”

QwickPAY makes things simple - download the free QwickPAY App, onboard your merchant account with ExpiTrans, and purchase the secure card reader authenticator that best fits your needs, to accept Visa, MasterCard, Amex, Discover, and mobile wallets. Go to the QwickPAY website to schedule a meeting with ExpiTrans to expedite your onboarding, request a demo, and a quote.
