**SOLUTION
INTEGRATION**

Instead of having to order, ship, and store one-time use cards for car wash coupons and promotions, CryptoPay is now offering digital QR Codes to serve customers faster

Seal Beach, CA - Oct 1, 2026 - MagTek, a global leader in secure payment technology and security solutions, and CryptoPay, a leading manufacturer in unattended payments for the self-service car wash industry, are excited to announce CryptoPay's integration of Qwantum Service to deliver Digital Tokens into their carwash payment solutions using CryptoTap Plus. CryptoPay is a popular payment solution for self-serve car washes that offers disposable cards that operators can provide for specific uses or promotions. Crypto Codes enable operators to now offer these promotions directly to the customer's phone.

Crypto Codes will enable operators to remotely issue QR Codes to customers' mobile phones to bring the same excellence in customer service as a one-time use card but with better efficiency. Since the operator can send the Crypto Code digitally, and since there is nothing to order, ship, or store, the cost of provisioning the promotion is much less.

"Integrating the Quantum Service to create and deliver Crypto Codes just made sense," said Dave Richards, Vice President of CryptoPay, "it is a simple and easy way to allow our operators to serve their customers faster and easier."

Operators often use one-time-use cards to reward loyal customers with a free wash or compensate customers when a bay malfunctions. Crypto Codes let operators provide this service faster by sending a code directly to a customer's smartphone. The customer presents the Crypto Code to the CryptoTap Plus card reader (MagTek DynaProx) which scans the code using its built-in barcode scanner. This MagTek DynaProx reader features a high-quality camera, with durable and reliable construction, and compliance with IK08 and IP66 standards, making digital tokens an efficient and less costly solution.

"We are excited that CryptoPay integrated Quantum technology. This deployment brings unmatched operational efficiency and instant token delivery to the CryptoTap Plus network," said Rod Vesling, Senior Vice President of Magensa, "Operators eliminate processing friction and further deliver greater value to their customers."

CryptoTap Plus operators add, manage, and issue Crypto Codes directly from the MyCryptoPay user portal. Physical one-time-use cards currently serve twenty-five percent of operators as a promotional and loyalty channel. Instant digital code delivery accelerates operator adoption and expands marketing reach across the network.

For more information regarding Quantum Services please contact MagTek at 562-546-6400, visit www.magtek.com, or email retailsolutions@magtek.com. For more information on Crypto Codes, please contact CryptoPay at: 719-277-7400. You can also get a live demo by visiting the CryptoPay Booth at #1139 at Carwash Con East (NRCC), taking place October 5-7, 2026, at the Atlantic City Convention Center in Atlantic City, NJ.

About MagTek

Founded in 1972, MagTek is a leading manufacturer of electronic systems for the reliable issuance, reading, transmission, and security of cards, barcodes, checks, PINs, and identification documents. Leading with innovation and engineering excellence, MagTek is known for quality and dependability. Our hardware products include secure card reader/authenticators, Quantum secure cards, token generators; EMV Contact Chip, EMV Contactless, barcode and NFC reading devices; encrypting check scanners, PIN pads, and credential personalization systems. These products all connect to Magensa, a MagTek owned gateway that offers businesses the ability to securely process transactions using authentication, encryption, tokenization, and non-static data. At MagTek, we don't outsource security. Our USA-based headquarters in Seal Beach, CA house our engineering, key injection, device management, production, sales, quality, and final assembly departments. Please visit www.magtek.com to learn more.

About CryptoPay

CryptoPay supplies point of sale solutions to the unattended cleaning solution environments. Founded in 2001 with a goal in mind to keep transactions secure, the process cost-effective and simple, and with award winning customer service. In a global field of more than 10,000 businesses, CryptoPay was recently ranked in the top 100 providers for best customer service as measured by the chat provider LiveHelpNow. This recognition highlights the professionalism, skill, concern, and quest to provide the best service possible. We offer a cost effective, secure, and easy to operate system.
